Skills Alberta

Skills Canada Competitions feature the talents of Alberta's trade and technology students. Regional Skills Canada Competitions (RSCC) connect students to local post-secondary and industry leaders. By taking their skills out of the traditional classroom setting, students gain an appreciation for where their skills can take them and are encouraged to reach for their personal best.

Once again Kate Andrews High School will be sending students to compete in the Regional Skills Competition on April 25, 2018 at the Lethbridge College. Information packages can be picked up from your CTS teacher.

Fine Arts And Drama Update

The Drama 10/20/30 class is currently working on a devised theatre project based on Jean Twenge's article "Have Smartphones Destroyed a Generation." The project is focused on themes that students have derived from the article such as the impact technology and social media have had on their lives and relationships. Students are busy creating monologues, movement pieces, and a multitude of scenes that highlight several of the articles themes and statistics. Along with the drama class, Mrs. Hierath's art class is hoping to set up a Skype visit with Ms Twenge in April. The class will present their work at the end of the month at SHED the Mask, a student led drama festival, and here at the school.

FEED THE PRIDE!

The "Feed the Pride" healthy snacks have been a hit around the school! Thank-you again to the Coaldale Community Wellness Association for providing the grant that supplies this food for students. Because of this grant we have able to provide healthy snacks, like fruit, yogurt, muffins and granola bars to students, free of charge, daily in the office and library.
